Oklahoma County Staff Report

Meeting Date — November 14, 2013

Case: Preliminary Plat (PP-2013-01) - Summit Lake Estates, Section II

Board of County Commissioner District: Ray Vaughn — District 3

<u>Applicant</u>	<u>Owner/Proposed Location Address</u>
Summit Lakes Development 16200 Sonoma Park Dr. Edmond, OK 73013	Summit Lakes Development NW 220th St. & May Ave. Edmond, OK 73012

Request: Public hearing with discussion and consideration of approval/denial of the Preliminary Plat of Summit Lake Estates, Section II for the purpose of developing 77 lots on 79.86 acres.

Proposed Use: Applicant proposes to continue the second phase of the Planned Unit Development, for the purpose of developing a single family, gated, private road, residential subdivision.

Site Location: Southeast corner of NW 220th St. & May Ave.

Size: The area of request is comprised of approximately 79.86 acres.

Project Background

The developer is bringing the Preliminary Plat of Summit Lake Estates, Section II before the Planning Commission for their review and approval. The developer is planning on 77 lots on 79.86 acres for Section II. All requirements for the preliminary plat submittal have been met. If the Planning Commission approves the Preliminary Plat, the applicant may then begin the construction of this phase. The Final Plat must be applied for within one (1) year from the date of Preliminary Plat approval by the Planning Commission.

If approved, staff will notify project engineer about test hole locations for the roads within Section II of Summit Lake Estates. Staff will also notify District 3 Superintendent, Gerald Wright, about the approval of this section and he will over see construction of the roads in Summit Lake Estates, Section II.

Case: Planned Unit Development (PUD-2012-02) - AA - Agricultural & Rural Residential to PUD — Planned Unit Development
Board of County Commissioner District: Ray Vaughn — District 3

<u>Applicant</u>	<u>Owner/Proposed Location Address</u>
Crafton Tull Sparks 214 E. Main St. Oklahoma City, OK 73127	Fernleaf Farms 8312 W. Reno, Suite B Oklahoma City, OK 73127

Request: Public hearing with discussion and consideration of approval/denial of rezoning for the purpose of developing a Planned Unit Development.

Proposed Use: Urban Single-Family Residential (RS) subdivision with 6 acre Urban Commercial and Office (CG) zoning.

Site Location: Southeast corner of NW 178th St. and MacArthur Blvd.

Size: The area of request is comprised of approximately 160.64 acres.

Project Background

This property has been zoned AA — Agricultural and Rural Residential since the adoption of the 1991 Oklahoma County Zoning Regulations.

The developer is planning to create a 160 acre Planned Unit Development (PUD) on the southeast corner of the intersection of NW 178th St. and MacArthur Blvd. A PUD is a special zoning district that provides an alternate approach to conventional land use controls. In this situation the developer is utilizing 154 acres for residential purposes and 6.22 acres for commercial purposes. The PUD is controlled according to the master development plan and is subject to special review procedures. Once approved by the Board of County Commissioners, the PUD becomes a special zoning classification for the property it represents.

The gross area of the project is 160.64 acres, of that 154.42 acres is residential and 6.22 acres is commercial. The average lot size for this development is .50 acres, there will be 197 dwelling units, and there will be a gross density of 1.28 dwelling units per acre. There will be 24.10 acres of common space and the streets will utilize 8.56 acres of the total land area.

Traffic Information

Oklahoma County Planning and Engineering Department has done additional research to approximate future traffic for a subdivision the size of the proposed PUD. Staff used the 7th Edition Trip Generation Manual, authored by the Institute of Transportation Engineers, to calculate the approximations. According to the Trip Generation Manual, a subdivision containing 197 lots will generate approximately 1,940 trips per day. The Trip Generation Manual also specified that the trips would be distributed directionally, with 50% entering and 50% exiting throughout the day. The preliminary traffic analysis would then indicate future traffic counts of 6,044 per day along MacArthur Blvd. and 5,350 per day along NW 178th St. The traffic counts below are the current 7 day counts that Oklahoma County has taken.

MacArthur Blvd. — 5,074 ADT taken in 2010
NW 178th St. — 4,380 ADT taken in 2009
NW 164th St. — 3,187 ADT taken in 2010

The developer is required to conduct a Traffic Impact Analysis at the preliminary plat phase for the proposed PUD; final traffic counts will be provided at that time.

The developer is requesting the roads be maintained by Oklahoma County.

Flood Hazards

- ◆ No Flood Hazards exist on the subject property. There are two streams that enter the property; one from the north and one from the east. The developer will need to contact the Corps of Engineers to get a determination as to whether or not a 401 or 404 permit is required.

Vehicle Access

- ◆ The subject property has two points of access to the residential property. One access will be on NW 178th St. and the other on MacArthur Blvd.

Summary of Conformance with the Master Plan

The Master Plan shows this area as an Urban Growth Area. This development contains single-family homes with the smallest lots being .5 acre in size and the largest lot size being slightly over an acre. The developer is integrating a neighborhood commercial use of 6.22 acres at the intersection of key section line roads. Green spaces include private neighborhood parks and sidewalks so residents can walk freely throughout the area. The developer will utilize Deer Creek Water for water service and private waste systems for each individual lot. The gross density for this development will be 1.28 du/ac. According to the Master Plan Urban Growth Area category, six to eight dwelling units per acre is allowed when the development is served by water and sewer. As mentioned above, this development is only proposing using Deer Creek water with private septic systems.

Police Response to the Mayflower Development

Sheriff John Whetsel was notified of the proposed development and asked how it would effect the Sheriff's department. Sheriff Whetsel gave several divisions within the Sheriff's department an opportunity to review the development and provide input. Sheriff Whetsel stated that he does not see this development adding significant strain to his department and has no objections to the proposed development.

Fire Response to the Mayflower Development

Cory Beagles, Deer Creek Fire Department Fire Chief, feels that the department could serve this development thoroughly. The primary station is three miles away from the proposed subdivision location. The department is manned eight hours during the day and volunteer response during the evening and early morning hours. Mr. Beagles also stated this area is within an automatic response zone and Piedmont would respond if required. Mr. Beagles stated in short that he has no reservations about serving the proposed development.

The developer will be required to install fire hydrants.

General Description of Urban General Commercial & Office District

This commercial district is intended for the conduct of business activity which is located at the edge of residential areas but which serves a larger trade area than the immediately surrounding residential neighborhoods. Business uses will most often be found in a wide variety of commercial structures, normally on individual sites with separate ingress, egress, and parking. Due to the varied uses permitted, it is important to provide adequate separation as much as visually and physically possible from any nearby residential areas and to limit the harmful affects of increased traffic, noise, and general non-residential activity which will be generated.

All other uses will be allowed.

Issue of Accessible Utilities

County zoning regulations require connections to water and/or sewer mains *if accessible*. The developer has stated that they will utilize Deer Creek Water service in the proposed development. While treated water and sewer facilities are always preferable, it is a question of fact as to whether sewer facilities are *accessible* in this case. Oklahoma State Statute Title 19 § 868.8 ***Approval of Plat of Subdivided Lands — Rules and Regulations*** states “Such general rules shall provide for the modification thereof by the County Planning Commission in specific cases where unusual topographical or other exceptional conditions may require the same.” Due to the distance required to extend sanitary sewer lines (***one-half mile***), a determination should be made by the commission as to whether sanitary sewer is accessible.

The closest sanitary sewer line is approximately one-half mile to the west of the proposed development.

Summary of the Zoning Application

The Planned Unit Development (PUD) of Mayflower consists of 160.64 acres and is located on the southeast corner of the intersection of NW 178th St. and MacArthur Blvd. The development will consist of 20.88 acres of open space (***24.10 acres of open space is required***), gross residential area of 154.42 acres, and gross commercial area of 6.22 acres. The project will consist of 197 lots, and a gross density of 1.28 dwelling units per acre. The development will be served by Deer Creek water and each lot will have its own private septic system. The developer has stated that sidewalks will be required during home construction for residential access to open spaces. Maintenance of all common areas and amenities in the development will be the responsibility of the home owners’ association.

Additional Notes

This development meets the criteria for a Traffic Impact Analysis (TIA), which will be required for the preliminary plat. (The TIA has been submitted and will be reviewed and explained at that phase of the process).

A letter from Deer Creek Water Corporation will be required at the preliminary plat phase of this process.
