THE OBJECTIVES OF THE OKLAHOMA COUNTY FREE FAIR

The Oklahoma County Free Fair continues to stress quality in the areas of agriculture and related youth and adult activities. It gives all who enter exhibits an opportunity to compare efforts with those of others in the county, the intent being that success in exhibiting will stimulate exhibitors to greater efforts, while providing an opportunity to learn from others who have higher ranked exhibits. It is the purpose of the Fair Board to make the Free Fair educational and to encourage cooperation among all persons in the various communities of the county.

The management of the Oklahoma County Free Fair is in the hands of the Oklahoma County Free Fair Board which is composed of three elected members from each Commissioner District. The active management of the fair is in the hands of an Executive Board consisting of a president, vice-president, secretary and six board members.

The Oklahoma County Free Fair is financed by taxation. No admission charge will be made and no entry fee will be charged.

The Oklahoma Cooperative Extension Service is an equal opportunity/equal access/affirmative action institution. If you require a reasonable accommodation to participate or need materials in another format, please contact your County Extension Office (or other appropriate office) as soon as possible.

SPECIAL NOTICE

Any person who interferes with or disrupts the management or judging of either the Oklahoma County Free Fair or the Oklahoma County Junior Livestock Show will be removed from the grounds and barred from the shows for a period of not less than one (1) year.

"Fully owned" is defined as: no consideration of any kind (i.e., monetary, or otherwise) has been given in exchange for contemplated, pending or completed sale of horse between July 1, 2025, and show date. Registration papers will serve as proof of ownership. Non registered horses must have a Statement of Ownership or Lease signed by the 4-H member and parent/guardian. Registration paper transfer date must be by July 1, 2025. Forms are available at the OSU Extension Center, 2500 NE 63rd St., OKC, OK 73111 or at <https://extension.okstate.edu/county/oklahoma/4h/horseownership.pdf>. A current (within last 12 months) negative Coggins test must accompany each entry. Riders may enter no more than one horse per class and no more than 2 horses per age division (8-11, 12-14, 15-19). Those horses must be shown and/or ridden by that contestant only. A contestant or a horse cannot enter or show in the same class twice. **No horse may cross enter a western pleasure class and a ranch horse riding class.** All riders are required to wear safety helmets during speed events. Helmets will not be provided. All riders are required to wear an assigned number while competing. Failure to do so results in disqualification. Inhumane treatment of a horse identified by the designated officials may result in disqualification, dismissal, and suspension from further participation in the show. All performance classes and proper attire will be judged according to the 2024 Official Handbook, Rules for Oklahoma 4-H District and State Qualification Horse Shows. <https://4h.okstate.edu/projects/horses/site-files/docs/2024-4-h-horse-rulebook-a.pdf>. Jobs will include: gatekeeper, ring steward, announcer, ribbon distribution, set up and tear down of barrels, poles, and jumps, and other jobs as needed. There will be no adding classes after pre-registration. Classes may be scratched during the show. It is the rider's responsibility to notify the show superintendent of scratched classes. Horses may move on Friday, September 5th. Horses must be in place by 8:00 a.m. Saturday, September 6th. High point awards will be calculated by the one horse/one rider rule and by the following formula: 8th place = 7 points; 7th place = 8 points; 6th place = 9 points; 5th place = 10 points; 4th place = 11 points; 3rd place = 12 points; 2nd place = 13 points; 1st place = 14 points. In classes with less than 8 participants, the last place will receive 7 points, adding 1 point per higher placing. Halter classes will not be figured into the total points earned. In the case of a tie, a designated event randomly selected before the start of the show, by show officials will determine the winner. Highest placing in the event breaks the tie.

Engineering Design Challenges

Criteria:

Engineering design challenges are intended to encourage 4-H members to use the Engineering design process to create their own projects. These projects should include an engineering notebook, journal or description which answer the following questions about their project. Projects without an engineering notebook will be judged accordingly. Projects with notebooks will place before projects without notebooks, journals, or descriptions.

- What is the challenge or task of your project (Example: Throw a marshmallow six feet, incorporate technology into clothing, create alternative energy, design and build a rubber band powered car, etc.)
- Draw your design
- How did you test your design?
- What were the results?
- How did you change your design to improve it?
- Did you retest it? Did the results improve?
- Describe your final design and does it work?

Engineering Design Challenges will be judged based on creativity, design, function, and recordkeeping (journal or engineering notebook).

Juniors - grades 3-7; Seniors – grades 8-12.

Marshmallow catapult challenge design task

Design a trebuchet-style swing arm catapult. It may be similar to a teeter-totter or swing set. The beam (arm) is able to swing (go up and down). The arm of the catapult must be adjustable from the center to an offset (One side of the beam is longer from center pivot point.). Use at least five (5) different types of materials or parts (craft sticks, brads, dowels, etc.). Use weights and gravity as the power source. Catapult cannot be any larger than a 3-foot cube (3' X 3' X 3')

Launch a marshmallow at least six (6) feet. A journal or engineering notebook should be included to describe the creation, purpose and function of the device. Explain how you built and tested your catapult. Chart your marshmallow launches.

Rubber Band-Powered Vehicle Design Challenge

Design a wheel-driven vehicle, powered only by one rubber band (size #64 approx. ¼" wide by 3½" long by 1/32" thick.), which will transport a one-pound "load" (box of baking soda approx. size: 3½" x 4½" x 2") at least 9 feet (on a smooth flat floor) while remaining within the boundaries of a 3 ft. wide parallel track (marked off with masking tape). Speed is not a criterion.

There are no restrictions on materials, size, weight or number of wheels. However, the only energy source permitted is the elastic energy of one rubber band. Commercially assembled vehicles are NOT permitted. However, commercially manufactured components may be used as parts of the vehicle. The vehicle must be self-starting (i.e., no pushing, external power starts, etc.). Propulsion of the vehicle must be through the wheels (i.e., no propellers, no launching mechanism). Transferring the energy of the rubber band to wheels via gears, fly wheels, etc., is encouraged. No remote-control devices are permitted.

A journal or engineering notebook should be included to describe the creation, purpose, and function of the device. Explain how you built and tested your vehicle and if you made any modifications. Chart or graph collected data and explain how you measured improvements in your engineering notebook or journal.

- Describe new STEM-based careers in agriculture.

Research displays should use research-based information and resources to answer questions similar to the following, "What will the future of Agriculture look like?", "How will agriculturalist feed an ever-growing population?" or "What are future careers in agriculture?"

All research displays should be mounted on a free-standing display board not to exceed 3' x 3' when the sides are extended for display. Commercially available "Science Fair Presentation boards" are encouraged". First place exhibits in each class will be displayed. Second place and sub-sequential exhibits may be displayed based upon space available and judges'/committees' discretion. Displays should be readable/understandable from a distance of 10 ft. CONSUMER/FAMILY SCIENCES DIVISION - SECTION 306

Design and Construction

- **Fall 2022 – All Design and Construction projects will be REQUIRED to have the Skill Mastery Sheet securely attached to the project. Use a safety pin and attach directly to the exhibit when at all possible. NEVER attach sheet to a hanger! The sheet MUST be completed by the 4-H member.**
- The skill mastery sheet (<https://4h.okstate.edu/projects/design-and-construction/curriculum-and-patterns.html>) is an education tool to guide project work. Click Sample Technique Cards to find instruction for many of the techniques noted in the skill sheets (i.e. facings, zippers, hems, fasteners, etc.).
- Instruction Sheets for the projects listed can be found at: <https://4h.okstate.edu/projects/design-and-construction/project-guide-sheets.html>
- Fair exhibits have been carefully selected and directed for members to investigate and learn specific skills/information and to demonstrate mastery of these skills/information.
- The end-product/exhibit is being evaluated on the skills “learned/mastered.” The skill sheet serves as the member’s “personal reflection” and communicates to the judge what was learned. Why is this important? Because in 4-H, the reflection and application of what was learned is more important than the end product/exhibit.
- The skill sheet is to be used as a planning tool. It is important that each 4-H member take responsibility for the life skill of “learning to learn.” This may require members, leaders and educators to look up terms and learn techniques as part of the educational process.
- Resources, instructions and project guides are posted online. Members are encouraged to seek out other valid resources which teach proper technique and knowledge in the areas of design and construction.
- General Skills to be mastered in project/product in ADC, IDC and HTDC:
 - **Structural Design:** Construction technique, size, form, color and texture suited to the materials and product end use.
 - **Elements of Design:** The finished product illustrates the member is learning or “mastering” the basic elements of design - line, shape or form, texture, color, and space.
 - **Principles of Design:** The finished product illustrates an awareness and application of the principles of harmony, proportion, balance, rhythm and emphasis adding dimension, interest and/or appeal to the finished product.
 - **Surface Design:** This is any lines, shapes, colors, textures, or materials applied to the product or item’s design that creates an emotional or personal quality, individuality and creative expression without disturbing initial/end purpose/how it is used. Design is that “something” which makes the item unique to the individual designer.
- Reports/Descriptions/Expense Sheet/etc. – Exhibits requiring a report/description/expense sheet of any kind, can be typed or neatly/legible handwritten. Report should be one-two pages. If typed, it must be double spaced using a minimum of 12-point font. Report MUST be SECURELY attached to the exhibit.
- A county may enter one (1) exhibit in each class. A 4-H member may enter one (1) exhibit per class. Hangers will not be returned.
- Awards: Ribbons will be awarded to the top 10 in each class.
